■ ■ USIISOME ORODHA HII KWA SAUTI · DO NOT READ THIS ALOUD

Hii ni **hifadhi ya maswali**, si hati ya mahojiano. Mahojiano ni maswali 8 tu (ArdaLink_Mom_Test_Questions.pdf). Ukisoma orodha hii kwa sauti, unageuza mazungumzo kuwa fomu — na mchungaji atajibu kama fomu.

Tumia hii baada ya mahojiano: kuangalia sehemu ambazo mazungumzo hayakufikia, na kuandika kile ulichosikia.

(This is a pool, not a script. Interview with the 8-question guide; come back here afterwards to see which block the conversation did not reach.)

Kabla ya kuanza

Sema hivi: Habari. Jina langu ni ____, natoka Arda Link. Tunatengeneza huduma ya simu kwa wachungaji, na tunataka kujua matatizo yenu halisi. Hili ni mahojiano, si mradi wa msaada, na **hakuna malipo ya fedha**. Huenda tusitengeneze kitu kabisa. Nitakuuliza maswali kama dakika 45. Naomba kuandika na kurekodi, ili nisikose ulichosema. Unaweza kusimama, au kuruka swali lolote, wakati wowote. Jina lako halitatumika popote bila ruhusa yako. Tukianza?

4. **Weka alama kwa kila taarifa:** FACT · NUMBER · QUOTE · WORKAROUND · PAYMENT · TRUST-BREAK · COMMITMENT · BLOCKER. (*Tag every note.*)

Ukikumbuka kitu kimoja tu: alifanya nini mara ya mwisho? — na omba namba. (*If you remember one thing: what did he do last time — and ask for the number.*)

This is the question set only. The full round — hypotheses and kill criteria, quotas, consent and data rules, product tests, the ecosystem interviews, the tracker and the print pack — is in `docs/field/mom\_test\_field\_kit.md` (regenerate the docs with `python scripts/make\_mom\_test\_kit.py`).
